

BHUMIKA MOURYA

9575057121 | bhumikamourya275@gmail.com | [GitHub](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Computer Science recent graduate skilled in Full Stack Web Development (MERN Stack) with hands-on experience in building full-stack web applications through academic and personal projects. Experienced in backend development, RESTful API development, authentication systems, database design, and modular server-side architecture. Strong problem-solving skills in DSA and OOP, focused on writing clean, efficient, and scalable web applications.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science and Engineering 2022-2026
RGPV / Shri Dadaji Institute of Technology and Science, Khandwa, Madhya Pradesh
CGPA: 7.2 / 10.00

PROJECTS

AI-Based Career Coach & Interview Preparation Platform [Live](#) | [GitHub](#)

Tech Stack: React.js, Node.js, Express.js, MongoDB, RESTful APIs, JWT, Gemini AI

- Developed a full-stack web application for AI-based career guidance, skill analysis, and interview preparation
- Built RESTful APIs for authentication, user management, progress tracking, and interview modules
- Integrated Gemini AI to generate personalized career recommendations and technical interview questions
- Implemented JWT-based authentication with secure route protection and session management
- Designed modular backend architecture using MVC pattern for scalability and maintainability
- Created MongoDB schema for users, skills, and roadmap tracking data
- Optimized API structure for efficient request handling and data flow

Wanderlust - Full Stack Web Application [Live](#) | [GitHub](#)

Tech Stack: Node.js, Express.js, MongoDB, EJS, Passport.js, Bootstrap

- Developed a full-stack property rental platform with user authentication and CRUD functionality
- Built RESTful APIs for listings, users, and review management with validation
- Implemented secure session-based authentication using Passport.js
- Structured backend using MVC architecture for clean separation of concerns
- Designed MongoDB database for users, listings, and reviews
- Built responsive frontend using Bootstrap and EJS templating engine

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, SQL

Frontend: React.js, HTML5, CSS3, Bootstrap, TailwindCSS

Backend: Node.js, Express.js, REST API Development, JWT

Databases: MongoDB, MySQL

Tools & Platforms: Git, GitHub, Postman, VS Code

Core CS Skills: Data Structures & Algorithms, Object-Oriented Programming, DBMS

CERTIFICATIONS

- **Full Stack Web Development (MERN)** - Apna College
- **Data Structures & Algorithms with Java** - Apna College
