PROFESSIONAL SUMMARY

Full Stack Developer skilled in MERN stack with experience building RESTful APIs, authentication systems, and AI-powered web applications. Developed scalable backend services, database models, and responsive frontend interfaces. Strong foundation in Data Structures & Algorithms, and problem-solving.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science & Engineering **Aug 2022 - Jul 2026**
Shri Dadaji Institute of Technology and Science, Khandwa, Madhya Pradesh
CGPA: 7.3

PROJECTS

AI-Based Career Coach & Interview Preparation Platform | <https://arynexus.netlify.app>

Tech Stack: React.js, Redux Toolkit, Axios, Node.js, Express.js, MongoDB, JWT, Gemini AI

- Built an AI-powered career coach & interview preparation platform that helps users prepare for placements through personalized learning and interview preparation.
- Created Resume Builder, Resume Analysis, and Skill Gap Analysis modules to identify weak areas and recommend targeted study plans.
- Integrated Google Gemini API to generate role-specific mock interview questions and provide personalized feedback.
- Designed a Placement Dashboard with Progress Tracking and Readiness Score to monitor learning progress and interview readiness.
- Implemented secure authentication, user management, and backend APIs following the MVC architecture with JWT-based authorization.

Wanderlust - Full Stack Web Application | <https://wanderlust-project-3uh0.onrender.com>

Tech Stack: Node.js | Express.js | MongoDB | EJS | Passport.js | Bootstrap | Cloudinary | Mapbox

- Developed a full-stack platform with authentication, listing management, and review functionality.
- Implemented secure CRUD operations, authentication, and authorization using Passport.js and the MVC architecture.
- Integrated Cloudinary for image uploads and Mapbox for location-based property visualization.
- Structured the application using MVC architecture and deployed it using cloud-hosted services.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), SQL

Frontend: React.js, HTML5, CSS3, Bootstrap, Tailwind CSS

Backend: Node.js, Express.js, RESTful APIs, Authentication(JWT)

Databases: Mongo DB, Mongoose, My SQL

Tools & Platforms: Git, GitHub, Postman, VS Code, Render, Netlify

Core CS Skills: Data Structures & Algorithms, OOP, DBMS, Operating Systems

ACHIEVEMENT & CERTIFICATIONS

- Participated in Smart India Hackathon (SIH), collaborating in a team to design and develop a software solution.
- Strong understanding of problem-solving patterns including Two Pointers, Sliding Window, Recursion, & Binary Search through consistent coding practice.
- Full Stack Web Development (MERN)- Apna College
- Data Structures & Algorithms with Java- Apna College
