PROFESSIONAL SUMMARY

Full Stack Developer skilled in MERN stack with experience building RESTful APIs, authentication systems, and AI-powered web applications. Developed scalable backend services, database models, and responsive frontend interfaces. Strong foundation in Data Structures & Algorithms, and problem-solving.

EDUCATION

Bachelor of Technology (B.Tech) in Computer Science & Engineering.

Aug 2022 - Jun 2026

Shri Dadaji Institute of Technology and Science, Khandwa, Madhya Pradesh

CGPA: 7.3

PROJECTS

AI-Based Career Coach & Interview Preparation Platform | [Link](#)

Tech Stack: React.js, Redux Toolkit, Axios, Node.js, Express.js, MongoDB, JWT, Gemini AI

- Built an AI-powered career coach & interview preparation platform that helps users prepare for placements through personalized learning and interview preparation.
- Created Resume Builder, Resume Analysis, and Skill Gap Analysis modules to identify weak areas and recommend targeted study plans.
- Integrated Google Gemini API to generate role-specific mock interview questions and provide personalized feedback.
- Designed a Placement Dashboard with Progress Tracking and Readiness Score to monitor learning progress and interview readiness.
- Implemented secure authentication, user management, and backend APIs following the MVC architecture with JWT-based authorization.

Wanderlust - Full Stack Web Application | [Link](#)

Tech Stack: Node.js | Express.js | MongoDB | EJS | Passport.js | Bootstrap | Cloudinary | Mapbox

- Built a full-stack property rental platform with authentication, property listings, reviews, and user management.
- Implemented secure CRUD operations, Passport.js authentication, and role-based authorization using the MVC architecture.
- Integrated Cloudinary for image uploads and Mapbox for interactive maps and property location visualization.
- Designed RESTful APIs, optimized MongoDB database operations, and deployed the application on cloud platforms.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), SQL

Frontend: React.js, HTML5, CSS3, Bootstrap, Tailwind CS

Backend: Node.js, Express.js, RESTful APIs, Authentication(JWT)

Databases: Mongo DB, Mongoose, My SQL

Tools & Platforms: Git, GitHub, Postman, VS Code, Render, Netlify

Core CS Skills: Data Structures & Algorithms, OOP, DBMS, Operating Systems

ACHIEVEMENT & CERTIFICATIONS

- Participated in Smart India Hackathon (SIH), collaborating in a team to design and develop a software solution.
- Full Stack Web Development (MERN)- Apna College
- Data Structures & Algorithms with Java- Apna College
